

iSmartIMMO G3

iSmartIMMO G3

Multifunctional Vehicle Anti-theft Programming Module

System Supported

- Engine System
- Auto Transmission System
- Instrument System
- CAS
- Vehicle Body System
- Lock System

Main Functions

Anti-theft Type Recognition

Key IC Reading and Writing

Anti-theft Password Reading

Anti-theft Components Replacement

Key Matching

IC Reading and Writing

Remote Control Matching

ECU Reading and Writing

Features

- Integrated multi-function module, one machine with multiple functions, high cost performance
- Fast and accurate reading and writing of data
- Powerful function, integrated key matching / copy, car anti-theft chip read-write, car computer read-write and other functions
- It can be used with a variety of diagnostic equipment, no binding, flexible use and wide adaptation range

Advantages

- Integrated functions of key matching/copy, vehicle anti-theft IC reading and writing, ECU reading and writing, etc
- Support common ECU/MCU/EEPROM major manufacturers with more than 1,000 product models and updating
- Support Volkswagen/Audi non-35xx, nec24c64 14+ instrument replacement without disassembly and original data
- Support ECU replacement for the 4th-generation engine of Volkswagen/ Audi gearbox
- Support ECU replacement for the 5th generation of Volkswagen/ Audi and Simens gearbox
- Support the all loss and replacement for the 4th-generation of Audi EZS, Comfort ECU, and KESSY IC
- Support Volkswagen/Audi MQB platform gearbox replacement or clone
- Support BMW E, F, G chassis 8HP gearbox flushing
- Support replacement of BMW CAS4/CAS4+ module
- Support replacement or clone for Volkswagen/Audi MQB platform gearbox
- Wipe out password of engine and gear box in 3 seconds of Mercedes-Benz
- Calculate password in 1min when adding new key for Mercedes-Benz

A powerful tool with amazing flexibility and compatibility
