

Hands Free Suspension Arm Lever

For removing ball joints, control arms and suspension joints. Specifically designed to pull and hold down the lower suspension arms to allow separation of the hub from the lower arms; also assists in the separation of lower ball joint or suspension struts from the hub. Makes the job easier and safer with hands free operation.

Refer to following diagrams for fitment procedures:

Precautions:

- The suspension arm lever is not intended to break the taper of the suspension joint; the joint must be separated from the suspension arm using the appropriate tool and then the lever can be used to facilitate removal.
- Observe standard workshop safety procedures when using the lever.
- Keep the suspension arm lever clean and always return to the original packaging after use.

Our products are designed to be used correctly and with care for the purpose for which they are intended. No liability is accepted by the Tool Connection for incorrect use of any of our products, and the Tool Connection cannot be held responsible for any damage to personnel, property or equipment when using the tools. Incorrect use will also invalidate the warranty.

If applicable, the applications database and any instructional information provided has been designed to offer general guidance for a particular tool's use and while all attention is given to the accuracy of the data no project should be attempted without referring first to the manufacturer's technical documentation (workshop or instruction manual) or the use of a recognised authority such as Autodata.

It is our policy to continually improve our products and thus we reserve the right to alter specifications and components without prior notice. It is the responsibility of the user to ensure the suitability of the tools and information prior to their use.

Guarantee

If this product fails through faulty materials or workmanship, contact our service department direct on: **+44 (0) 1926 818186**. Normal wear and tear are excluded as are consumable items and abuse.

Safety First. Be Protected.
